On the night of Aug. 27, a gang of Irishmen went to the house of a man named Elder, shot him and his wife, and a person named Hill, and accidentally killed one of their own party, named Murphy. The killing of the last was a fearful judgment. The other parties shot will recover.

### The States.

Gen. Harney, in compliance with an order issued more than six months ago, reported himself in person to the Secretary of War at Washington yesterday. He was relieved from the command of the department of Oregon at the instance of Lieut. Gen. Scott, for reasons in connection with the San Juan Island case. It is probable he will be court-martialed.—Cor. S. F. Bulletin.

The Greenwich Savings Bank, New York, was robbed of \$5,000, Aug. 10.

Mary Livon, a New York servant girl, is charged with having murdered an old sweetheart of hers, because he wouldn't marry her. Mary was arrested; but nothing to implicate her has been proven.

A foray upon the fashionable gambling houses has been commenced in Washington City. A fashionable gambler has just been convicted and sentenced to the State prison for four years.

In politics, matters are waxing warm. Senator Seward takes the stump for Lincoln. The New York Herald advocates the formation of a People's Party. The Southerners give the election to the Republicans, as certain.

TORONTO, C. W., Aug. 8.—Charles McDougal and Wm. F. Montague, of Cincinnati, arrived here, per steamer, from Hamilton, last evening. The latter person was arrested upon landing from the steamer, on a charge of embezzling \$35,000 from West & McDougal, produce merchants, of Cincinnati, of which McDougal was principal and Montague, clerk. McDougal has not yet been arrested. Montague and a woman were arrested, and it is reported that Montague's trunks were found to contain \$25,000, mostly in gold.

The Pike's Peak mines are represented as paying richly.

Jack Turner and Andrew Gidlow were before the Police Court at Boston, August 7, and committed for trial to a higher court, in default of \$3,000 bail each. They were arrested on the 6th as principals in a prize fight on one of the islands in the harbor, and had indulged in eighty-five rounds, when the police arrived and arrested them. Both were nearly blind. John Welsh, bottle-holder, was also arrested and held in \$1,000 for trial.

Edwin Forrest, the American tragedian, is about to again appear on the New York stage.

Filibuster Walker is at his old tricks, and if something be not done by the English or American authorities, will be the cause of bloodshed. Part of the cargo of the schooner Clifton, supposed to be connected with the expedition, had been seized by the British authorities at Belize, to whom the vessel was afterwards surrendered by the captain.

At Petersburg, Va., on the 16th of August, about 400 worthless free negroes were sold for non-payment of taxes, the buyers agreeing to pay 10 cents. per day for them.

### Europe.

The Irish volunteers have been granted permission to leave Rome. They were sick and discontented; had been engaged in several riots, and two or three of them had been shot by the authorities.

The British army numbers 323,259 men. Advices from Beyroot to the 16th July state that the majority of the Mussulmans had not taken part in the massacres at Damascus. Dates from that place to the 17th announce that the massacre had ended. The Kurds and Bedouins had retired to the interior, but the Christians were still concealing themselves. Four hundred Druses had been arrested and executed for participating in the massacres.

Kosuth, it is said, is preparing a plan for a revolution in Hungary. The old story; always "preparing" plans, but never carrying them out.

Spain, it is said, will appear at the conference of the Great Powers as the protégé of France.

The wheat crops of England and France have proved a partial failure.

Garibaldi had full possession of the Island of Sicily, which has been evacuated by the Neapolitan troops. He entered Messina July 26th. On the 5th August, the patriot made a descent on the mainland of Italy, and landed with a force of 18,000 men on the coast of Calabria. It is reported that he had been at Naples [?] to confer with the Revolutionary leaders. Naples had been proclaimed in a state of siege. Reports say that Austria will renounce the treaty of Villafranca, and actively oppose Garibaldi in Naples.

A force of 15,000 British is to be landed at Syria from the fleet.

Mowatt, Dickenson & Co., an old firm in the lace trade in England, have suspended payment, but their assets would nearly meet their liabilities.

Garibaldi had received an accession of two steamers from England, one called the British Vulcan, and a considerable sum of money. Kossuth's staff had arrived.

On the 24th July, a serious outbreak occurred at Constantinople between the Protestant Armenians and the Turks, touching the right of the former to use a burying ground. After rioting for several days, the disturbance was quelled.

The weather, says the London Times of the 4th August, has again become cold and ungenial—in fact most unseasonable, with frequent showers and a low temperature, and it cannot fail to seriously retard the progress of the growing crops. The change the last eight or ten days has been very disastrous. We see it stated that on the wolds of Yorkshire snow has fallen. The ground, it is said, was quite white, and hail-stones fell as large as nuts. The corn crops have laid in several places; the hay crop has been injured by the wet, and some stacks hastily put together were fired.

Later accounts by the Parana to the 7th of August note a favorable change in the weather in England.

Murdock & Son, extensive tanners at Perth, Scotland, had suspended payment.

Mr. Chaffers, the manager of the Royal Bank of Liverpool, had committed suicide.

A letter from Milan states that at Mantua some Hungarian soldiers, having obtained ball cartridges, fired into a corps of chasseurs noted for its loyalty to the Emperor. A sergeant was killed. Several of the Hungarian officers afterwards deserted.

A recent interview between the Kings of Denmark and Sweden, gave rise to a report that the Scandinavian kingdoms intended to form an alliance against Germany. The Swedish press, however, combats the idea of any aggressive policy, and the Swedish people are represented to be decidedly opposed to anything of the kind.

# THE BRITISH COLONIST

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

## REMOVAL.

The Publication Office of the DAILY BRITISH COLONIST has been removed from Wharf street, to the new Brick Building, on Government street second door south of the Post Office, up stairs, where all orders for Advertising, Job Work, etc., must in future be left.

Tuesday Morning, Sept. 18, 1860.

## British Columbia Petition and the House of Commons.

The voice of oppressed Englishmen in British Columbia has at last been heard in the House of Commons. By the last mail we observe that Mr. Roebuck had presented the petition, which, it will be remembered, was signed by nearly four hundred British subjects and forwarded to England. There were no foreigners who attached their names. The reason is obvious. Ever since the immigration in 1858, it has been the policy of Gov. Douglas to undervalue the population there by characterising them as foreigners. Naturally enough the Imperial government would have had some scruples about giving representative institutions—the law-making power—to those who did not owe the Crown allegiance. Still, Sir Bulwer Lytton, more advanced than some other statesmen, recommended, as far back as 1858, the formation of a Council of Advice from among the miners. This has never been carried out in the spirit intended; nor representative institutions conceded as they ought to have been long ago. Oppressive act after act caused the British residents to combine and frame a memorial to the House of Commons, asking not only for a legislative Assembly but for the removal of the Governor. No doubt the former will be conceded immediately, were we to judge from the following extract from the parliamentary reports; and as for a new Governor it cannot occur too soon:

Mr. Roebuck presented a petition, signed by several persons residing in British Columbia, stating that they are Englishmen not accustomed to live under a despotism, and praying for representative institutions. [Hear, hear.]

Evidently the feeling of the House of Commons is favorable to free institutions. When the Organic Act of British Columbia was under discussion in 1858, Mr. Roebuck was opposed to it, even on the ground that all were Americans; and claimed that free institutions should be given; and eulogised the constitution of California as a model for any country. Mr. Gladstone, the present Chancellor of the Exchequer, also characterises the arbitrary power given to the Governor as one hundred and fifty years behind the principles of British colonization, and only adapted to a penal colony. We are satisfied that a representative assembly for the sister colony is nigh, even at the door. We recommend our sister colonists, therefore, to prepare for a struggle. For it is matter beyond doubt, every exertion will be made to pack an assembly like the first and second of this colony. Serious disadvantages would result were such a state of things to occur. So being forewarned, we trust they will be forearmed to battle manfully for their rights and gain a victory over enemies to progress and reform.

## New Westminster Taxes.

It is an old trick among municipalities hopelessly involved in debt to fix upon a tolerably high rate of taxation and get double and treble the rate by assessing the property two or three times higher than the market value. We would not like to impute such a motive to the New Westminster Council; but if all accounts are true, they have succeeded in accomplishing the same result by their financiering. The civic charter allows the Council to impose a tax not exceeding two per cent on the value of all town lots. Of itself this rate is sufficiently high to satisfy the most patriotic even were they as full of progress as the city fathers of New Westminster. No very serious complaints, however, would have been made by tax-payers had the assessor appraised the property at or near its market value. That sapient official, either through the influence of the magnificent expectations of what the future capital of British Columbia may be, or from instructions, has actually in many cases assessed lots at double, treble, and four times their market value. The consequence of such a high valuation would be to raise the rate in a proportionate degree. For instance—several lots, the market value of which do not exceed \$100 each, have been assessed \$600. By this means the rate of taxes would be twelve instead of two per cent—\$12 in the place of \$2. One might naturally conclude that raising the ways and means in this way, would be a pretty clever piece of financiering, could it be carried out.

The Council, however, will set on the 20th as a Board of Revision. All appeals against the assessor's valuation will be then heard; and doubtless that august body will afford relief. But the relief in many cases will be equivalent to the taxes at an unreasonable valuation. Absentee lot owners will be at an expense to visit New Westminster or authorise an agent; and the inconvenience and expense attached will in many cases be as much or more than the taxes, high valuation and all. Absentees would be as willing to see the town improve as residents, and would gladly pay their quota of the taxes were they reasonable; yet they have substantial ground to claim relief from the present assessment in no very envious humor. The true course, we take it, is for the city council to equalise the value of the assessment roll, whether the owners are present or absent; and thus escape the imputation of clever financiering.

**DAN RICE'S GREAT SHOW.**—The whole city was delighted on Sunday to learn that this well known and justly popular circus had arrived by the Cortes—the Arab Giant, the famed elephant "Prince Albert," the learned ponies and all. Yesterday afternoon, the circus was opened to a good house, and all seemed much pleased with the excellent performances. The show has some of the best vaulters and riders in America among whom are Wm. and Arthur Aymar, Durand, LeRoy, and Dave Long, the noted clown. The acrobatic feats of LeRoy and Durand were wonderful and startling; and the whole entertainment was of a first class order. Last evening the tent was crammed to its utmost, and the audience almost split the canvass by their vociferous applause. One more chance remains to see this wonderful troupe of performers. A morning entertainment will be given at 9 o'clock, this day; and at 12 o'clock, the show will leave on the Cortes for San Francisco. Let none fond of recreation and a good laugh fail to attend, as it will be a long time before we have another opportunity of the kind offered us.

**DAYS OF RECKONING.**—The weekly *Vehicle of Trash* says the COLONIST has its Days of Atoneement. The *Vehicle* also has its Days of Reckoning. There have been several lately. One of them occurred not long ago, when its editor (a friend to the accused person) forced himself upon a coroner's jury in a murder case, and was objected to by his fellow-jurymen. The *Vehicle's* editor insisted upon remaining upon the jury, notwithstanding a solemn protest. Two days after, the *Vehicle* expired as a tri-weekly. There are other Days of Reckoning observed by the same man, which we may give to our readers at some future time.

**FROM THE SANDWICH ISLANDS.**—The bark Jenny Ford arrived from Honolulu on Saturday morning. She brings a full cargo of merchandise, 150 sheep, and 21 fine large mules. A large portion of the live stock and the merchandise is consigned to Messrs. Monsarrat & Almon, to whom we are indebted for late papers, in which, however, we find nothing of interest to our readers.

**JEWISH NEW YEAR.**—The observance of the Jewish New Year commenced yesterday, and many of the stories in town were closed. Divine service was held during the day in the large hall over Messrs. Koshland & Bros.' store, Wharf street. We understand the ceremonies will be continued until this evening.

**THE SAN JUAN WHISKY SELLER.**—John Taylor, captain of the sloop Fanny, was up for examination before the Police Judge yesterday. His case was partially examined into, and postponed for further evidence until this morning. John is evidently in a bad fix.

**THE WEEKLY COLONIST.**—The WEEKLY COLONIST, ready for mailing, may be obtained at the bookstores and at the publication office. It contains all the news of the past week, and several articles of interest to friends in other lands.

**THE STEAMER.**—The mail-steamer Cortes will leave at 12 o'clock to-day for San Francisco. Get your letters and papers ready.

Wm. Grant, a seaman on the bark Jenny Ford, assaulted his captain on Sunday, and was yesterday fined five shillings in the Police Court.

**THE CONFIDENCE MAN.**—Chas. H. Brown, the Indian confidence man, was sentenced to three months in the chain-gang on Saturday, on account of his inbred propensities for swindling Indians.

**ROYALTY COMING.**—Several of the royal family of the Sandwich Islands are expected to arrive in a few days.

**AUCTION OF SHEEP.**—P. M. Backus will sell at auction this morning, in the Hudson Bay Company's Yard, 140 sheep.

## Mining News.

The steamer Wilson G. Hunt arrived from the river on Saturday evening last. She brought thirty passengers—some of whom were from the Cariboo diggings. Ballou's Express had \$13,000; a trader, \$5,000; a company of five miners, \$6,500. As near as we could learn, about \$30,000 in treasure came down on her.

Mr. J. Conser, from Keethley's Creek, called upon us yesterday, and furnished the following information.

Keethley's claim, on Keethley's creek, alluded to in our paper last week, as having been preparing for work, has been opened, and the front bar yielded from \$12 to \$35 to the hand—nothing extra in those parts. The flat, back of the bar, however, prospected the day our informant left four dollars to the pan! The dirt, however, is only about a foot thick.

Black & McDonnell's claim, on the same creek, is a very rich claim. One share and a half sold for \$1100. It pays \$50 to the hand per day—pay-dirt from three to five feet deep.

Haseltine's claim has been tunneled about thirty feet into the bank. The dirt prospects from 25 to 75 cents to the pan. It is the "best thing" in British Columbia, and will last for years.

On the same creek, Patterson's claim is paying from two to three ounces per day to the hand. Jud, Moreland & Co.'s claim pays about the same. These diggings are in the bed of the creek. There are several other claims in the vicinity which are paying equally as well.

We stated last week that Harvey & Co.'s claim paid in six days, \$2100. The following week the same boys cleaned up \$1750. O'Rourke & Co., below Harvey's, average from three to four ounces per day to the hand. The pay-dirt in this claim is from three to seven feet deep. A share in this claim sold for \$1600.

Miners are very busy at work about the Forks of Quesnelle; but our informant could not state how they were doing.

Mr. Conser thinks there will be a large number of men who will winter in the country the coming winter.

**THE WILSON G. HUNT.**—We learn from Capt. Welch that he has thought of running his steamer only once a week, on Tuesday, in future, unless business in British Columbia revives. The last three trips of the Hunt she has only carried up 110 tons of freight, which as everybody must be aware, will never justify a boat in making semi-weekly trips in these waters.

## A Correction.

**EDITOR BRITISH COLONIST.**—Please correct a statement in the *Victoria Gazette* of Saturday. The report that E. H. King, Esq., is my partner in the contract for building the wagon road over the Harrison-Lilloet Trail is incorrect. Mr. King having no interest, direct or indirect, in the contract.

**Messrs. Hibben & Carswell,** stationers, Hall, have kindly furnished us with late papers, ex Cortes.

**No Quorum.**—The Assembly, owing to no quorum, did not meet yesterday.

## Later from China.

The bark Creole had arrived at San Francisco with dates to the 27th of July, being 21 days later than the news received by the Orbit on Friday last. We take the following from the *San Francisco Herald*:

Mr. Craine opened the consulate at Swatow on the 19th July. An advance of 2 tales have been made on the low, dusty, and common to flavoring kinds of tea, but rates for superior kinds, although scarce, remained unchanged.—No further intelligence has been received from Shanghai in regard to the movements of the rebels, but the Chinese believed that Hangechow had either fallen or was in great danger. A private letter from Talian states that there were 150 sail vessels in that Bay and all the English and French troops were encamped on the shore. A marine had shot the commander of the "Leven," Hudson, in his cabin, and then telling the second master that the commander wanted him, shot him also. Capt. Hudson was said to be mortally wounded, but the second master had recovered. Capt. Gordon of the Madras Engineers was drowned by the capsizing of a boat belonging to the "Imperatriz." The force concentrated at Talian were to proceed to the Taku forts on the 20th July, it having been determined to take those forts before peace overtures are made. Lord Elgin had arranged with Baron Gros not to await the arrival of the other French troops, and the attack was to commence the 1st of August. There is no other news of importance in the papers.

## The Prince of Wales.

We continue to make extracts from our Eastern exchanges of the progress made by the Prince of Wales through the Provinces:

A grand ball was given at Halifax Aug. 1, in honor of his Royal Highness the Prince of Wales' visit. The Prince was present, and danced with several ladies. The next day a regatta came off, and the morning after the Prince left for Windsor on the cars. At Windsor he received a handsome reception. Triumphant arches had been erected and salutes were fired by the Volunteers, Artillery and Rifles from Halifax. After a collation he proceeded by land to Huntsport, with an escort of over 200 carriages. He received addresses at Windsor and Huntsport, and embarked at 11:40 in the British gunboat Styx, which, after firing a salute, sailed for St. John, N. B.

In firing the salute at Halifax, an artilleryman was blown to pieces.

The Prince landed at St. John, N. B., at 10 o'clock on the morning of Aug. 3d. He was received by the Governor, Sir J. Mannes Sutton, and with cheers and a salute from the Artillery.

The Prince drove to the residence of Judge Chipman, and was followed by an immense procession of citizens, with drums beating, banners flying, and cannons roaring. Inside the gate of the Prince's residence were two thousand school children, the boys in black and the girls in white, who sang the national anthem and strewed bouquets on the roadway.

A levee was held afterwards at the Court-house, the streets leading to which were decorated with arches and fountains. Three or four hundred gentlemen attended, and addresses were presented, to which the Prince replied appropriately.

In the afternoon the Prince drove out with his suite in uniform. The city by this time had waked up, and there were cheers everywhere. Everybody was dressed in his best clothes, and all bent on enjoying themselves. In the evening there was a grand illumination and fireworks, and the Prince, accompanied by his suite, walked out and viewed the suspension bridge over the Falls of St. John.

The next morning at 9 o'clock, the Prince left for Fredericton by rail. At the way stations he was enthusiastically cheered. The royal party arrived at Fredericton about 6 p. m. the same day. On the 6th His Royal Highness attended divine worship at the cathedral. On Monday a levee was held. On the same evening a ball was given, at which the Prince danced every dance until 2 o'clock in the morning. At 6 a. m. the Prince left St. John, on arriving at which place, the people unharnessed his horses and drew his carriage through the streets. He subsequently embarked on board the *Styx* for Huntsport.

The Prince on the steamer was very affable—conversing with the passengers and borrowing books from them. He indulges in the habit of smoking cigars.

The Prince subsequently visited Truro, Jackwell and Picton, where he received and delivered addresses, and embarked at 5½ o'clock, p. m., Aug. 8th, for Charlotte-town, Prince Edward's Island, which place he reached on the 10th, at 1 a. m.

The Prince was received by the Lieutenant-Governor, George Dundas, and deputations of the clergy, members of Parliament and the Bar. Part of the sixty-second regiment and the Royal Volunteers lined the streets, which were decorated with numerous arches, flags, and mottoes. Troops of children were singing, and the crowds were shouting with enthusiasm.

The Prince arrived at Quebec on the 19th, and was most enthusiastically received. He attended divine service on the next day (Sunday). The Cathedral was crowded, but the arrangements were excellent and the order remarkable.

**A SENSIBLE THING.**—Archbishop Hughes, at the anniversary of the Mount St. Vincent Academy in New York, recently, said he was going to introduce into the establishment what he called "the Science of Cuisine," meaning the whole art and mystery of cooking dinners and keeping house. Every young lady, he said, though she were the daughter of a Queen, ought to understand the entire management of that sphere of which she is the beautiful mistress.

**DRUGS & MEDICINES.**  
**DR. ADOLPHUS'**  
**ANTI-RHEUMATIC CORDIAL**  
—AND—  
**Health Restorative**  
**IS THE MOST VALUABLE AND UN-**  
surpassed remedy for Rheumatism and Gout to  
be found in the world, or known at present. The  
discoverer of the above medicine does claim its infa-  
libility in all cases of Rheumatism and Gout—when  
used according to direction—and does offer a reward  
of five thousand dollars for any medicine that does  
supercede it, and is entirely vegetable. The Doctor is  
enabled to offer the above reward on account of his  
having used the above medicine for ten years in his  
practice, and has never known it to fail in the cure of  
the most protracted cases of Rheumatism and Gout,  
and withstood all known remedies to the profession.  
Doctor Adolphus is known and rightly celebrated  
throughout the State, for his cures in Rheumatism,  
Gout and Chronic Diseases, and has only to the con-  
tinued urgent efforts of his patients, and through the  
desire to help them who are not enabled to see him  
personally, or to spend a fortune to get rid of the dis-  
ease, which they have contracted in the pursuit of  
their daily calling; only this has been able to per-  
suade the Doctor to give the above medicine to the  
public, and at such terms that every suffering one  
should be able to reap its benefits.  
As Health Restorative its value surpasses all the  
mineral waters and riches of California; and is  
creating a revolution in the whole treatment of dis-  
ease throughout the world.  
In secondary and tertiary Syphilis, Scrofula, En-  
largement of the Glands, Dropsy, and all Nervous  
and Cutaneous Diseases, and the whole train of Chro-  
nic Diseases, which withstand and baffle the skill of  
the most excellent and learned physician in the  
world; in Chronic Diseases, whose name is a ter-  
ror as well to the physician as to the patient, this  
medicine has proved to be superior to any in exist-  
ence, and has cured in so short a time that they ap-  
peared like being abolished by magic influence, and  
in fact a few more such discoveries, and druggists  
will not be long in keeping a lot of useless medicines on  
hand whenever they are prescribed once in a ten  
score they have lost through time their properties in  
which their value did reside, if there was actually any  
in them.  
Take this medicine when your digestive organs are  
disordered and your blood is impure, it will surely  
act on your bowels.  
Take this medicine when you have a cold, and it  
will make you perspire freely.  
Take this medicine when your urinary and absorp-  
tion organs are disordered, and it will act on your  
kidneys—it penetrates every part of your body,  
searches even the most remote and secret recesses of  
your system, and removes the disease located there—  
it restores healthy action and gives tone to every  
organ in the human body—therefore it has rightly  
deserved the name it bears: **HEALTH RESTORATIVE.**  
The Doctor, who is averse to all patent medicines,  
wishes it to be understood that the above medicine is  
no such thing; but that he has, through the intro-  
duction of this medicine with its treatise and directions  
for use, made every sufferer to be his own physician  
in the above named diseases.  
Thinking it under my dignity to follow the mode  
of quacks, by appending certificates of physicians or  
private persons, which, as too well known, can be had  
for certain remunerations, applications of friends, or  
by the mode of boring a man's hair to death for even  
the most worthless trash, I will therefore leave it to  
those who want to cure, to inquire personally of  
men who have been cured by my medicines of all  
above diseases, and who can be found in almost every  
city and village throughout the State. I consider  
such personal conviction far superior to certificates of  
persons that are far from being known to them in  
want of medical aid.  
But should any one care for written testimonials  
or certificates regarding the cures performed by this  
medicine, they might call at my office, and I will  
show them certificates of true merit, which have been  
sent to me voluntarily, without applying for them,  
or by boring individuals to get the medicines.  
To satisfy the most scrupulous of men, also as a  
guarantee to those that have not had the opportunity  
of knowing the Doctor by reputation or personally, I  
have adjointed to every bottle of the Anti-Rheumatic  
Cordial, the certificate, under oath, of the United States,  
celebrated analytical chemist in the United States,  
that there are no minerals nor poisons contained in  
this medicine, although it is a very powerful medi-  
cine, and has a very strong action on the human sys-  
tem, which it necessarily must have, to overcome the  
action of disease of such malignant character.
